DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 28, 2005 has been entered.

Claim Objections

2. Claims 1, 8 and 12 are objected to because of the following informalities: (1) "the leading edges" in line 10 of claim 1 should be -- leading edges --; (2) "the aligning operation" in line 14 of claim 1 should be -- an aligning operation --; (3) "sheet feeding operation" in line 4 of claim 8 should be -- a sheet feeding operation --; (4) "the sheet" in line 2 of claim 12 should be -- sheets --; and (5) "aligning operation" in line 3 of claim 12 should be -- the aligning operation --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-6 and 8-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to independent claim 1 and its dependent claims 2-6 and 8-12, there is insufficient recitation in independent claim 1 to understand what structure moves pressure portion so as to weaken a pressing force exerted on the bundle of sheets during the aligning operation of the aligning portion. Also, it appears that if such structure is added to claim 1, such structure may or may not be shown in the drawings. In other words, the structure that performs the recited function in claim 1 needs to be further defined and also shown in the drawings.

Claim 4 recites the limitation "said rotary member" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "said rotary member" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.
